Git & GitHub | GitHub Pages | Google Sheets | Data Analytics Basics

EDUCATION & TRAINING

Web Development & Data Analytics (Tier 2) — Present

Government College Women University Faisalabad (GCWUF)

Collaborative Initiative with UN Women & Kanyan (D4WEE Project)

- Specializing in front-end development standards, GitHub repository management, and live deployment.
- Hands-on training in fundamental data analytics, visualization techniques, and spreadsheet reporting.

KEY PROJECTS

Personal Portfolio Website — 2026

HTML5, CSS3, JavaScript, GitHub Pages

- Designed and coded a fully responsive multi-section portfolio showcasing skill sets, projects, and contact info.
- Implemented smooth scroll animations and download capabilities for professional documentation.

Data Analytics Dashboard & Landing Page — 2026

Web & Spreadsheet Integration

- Created structured layout mockups and translated them into clean, production-ready web interfaces.
- Analyzed dataset metrics to generate visual summaries for decision-making.
